The Casita Bali is unlike any other home you've seen. It's not your typical mini home, and it's definitely not a standard modular home. It's a perfect fusion of both!

By cleverly placing the living room in the addition module, we've created more space for what matters most.

All while keeping the open house concept you love! Plus, it's a great value, offering more space than traditional mini homes without the cost of modular homes.
